This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

(c.) To his Excellency Thomas Wharton junr. presidt of the Supreme Executive Council of the Commonwealth of Pennsylvania.

The Petition of the officers and others of the first Battalion of Northampton County Militia.

Sir,

That your petitioners from a thorough friendship to mankind in General, and by necessity of doing justice to the best friend of our common cause in this country are therefore desirous to inform the Honble. supreme Executive Council of this state that we your Petitioners labour under Great uneasiness and many disadvantages with respect to Executing both the Civil and Military laws of this State—Our magistrates and officers of the Civil law act so diametrically opposite to each other that; what one of our justices of the peace will appoint adopt or command another no higher in authority will immediately Countermand and entirely disannul, We therefore as a faithfull Body of true subjects to this state do most earnestly request an immediate redress of such conduct in the Officers of the Civil law now in authority in some parts of this County, and most humbly desire that the Hon'ble Supreme Executive Council of this Commonwealth be kindly pleased to take into Consideration such Conduct as we your petitioners have been just mentioning and that you will please to adopt such measures as may cause our civil laws to run in their proper Channel.—

May it please your Excellency, Sir, we would further inform you that we have been told (and we believe from Good authority too) that many of the disaffected men of this County (and the sect nominated Moravians in particular) have petitioned and are petitioning the Honorable Supreme Executive Council of this Commonwealth for a redress of their Griev-

ances which they say have been unconstitutionally inflicted on them, Sir as their opinion is as such of our happy Constitution, We your petitioners most earnestly desire and most humbly request that an immediate stop may be put to the petitions and petitioning of an unlawfull sett of Disaffected men till they take the Oath or affirmation of allegiance to this state, or till they have a greater authority to address any of our Legislative Bodies in this Commonwealth.

Your immediate compliance with this our most earnest desire, Honorable sir will ever Bind your petitioners in duty to pray &c. &c.
